Delivery specifications C6 envelope

Size: 162 x 114 mm

Download the document with the name
'Template C6 Envelope 162x114mm.idml' or
'Template C6 Envelope 162x114mm.pdf' for the format of the
all-over printed C6 envelope of MusicalGreetingCards.

On page 2 of this document you will find an example design of an
all-over printed C6 envelope.

- Create your design in the layer with the name 'Artwork'.
- There is also a layer with the name 'Glue zone – no printing'.
  Please make sure there will be no printing here, because of the
  gluing of the envelope. So apply this layer when
  exporting to .pdf.
- Deliver as a high resolution pdf file (pdf/x-1a-2001).
- The pdf file to be supplied consists of 1 page and has size
  192x246mm, see the pdf file with the name
  'Example Design deliver C6 Envelope.pdf'
- Overfill and cutting marks is not required.
- Possible photos at least 300 dpi.
- Converting text into outlines to eliminate fonts problems.
- Convert any Pantone colours to CMYK.

- **Please note:** If your design is finished and you export the file
  to pdf, please deactivate the layer named 'Embossing mould'
  so that the embossing lines of the envelope will not appear in
  the eventual pdf. Otherwise they would be printed as well.
  The layer named 'Glue zone - no printing' should be left on for
  some time. This will be beneficial to the gluing of the envelope.
